ENSURING DOCUMENT INTEGRITY

## DocuCheck

### DocuCheck for Printers • DocuCheck for Finishers

Whether you are a commercial printer or a high volume statement provider, you will be aware of the daily production risks caused by operator or machine malfunction. Paper spoilage, lost, duplicated or incomplete documents are not just expensive to rectify – they can lead to significant financial problems or even lost contracts or customers. From single cameras to a full blown Automatic Document Factory solution, **Inspectron** is the world's leading independent supplier of building blocks and solutions to the quality end of the Print and Mail industry.

**DocuCheck** from **Inspectron** takes the risk out of production printing and finishing. With intelligent camera systems that track a number of key indicators, **DocuCheck** always knows which piece is where. And when combined with its flexible scripting feature, **DocuCheck** ensures the production runs smoothly and common errors (such as technical, practical or operator errors) are identified and eliminated swiftly and effectively.

Using the latest technology which is designed to adapt to your unique production environment, **Inspectron** works with all major machine vendors to deliver a complete and integrated solution, significantly reducing your overheads and making your business run more efficiently. **DocuCheck** can give a variety of electronic signals for warning lights, ink markers, and automatic stop, depending upon the application requirement.

The **DocuCheck** range can handle simple, one reading zone, medium speed tracking all the way to sixteen zones, two up, duplex at the highest production speeds in use today. **DocuCheck** is Windows-based and programmable for special applications like quality bar recognition, reconciliation of data from one zone with that from another, and its data can be stored locally and reported to outside database tracking systems such as **Formscan's Sentinel** production management system.

**Inspectron** has over 15 years of printing and mailing integrity experience. With over 1,000 solutions installed worldwide, **Inspectron** is ideally positioned to help with your unique variable data tracking needs.

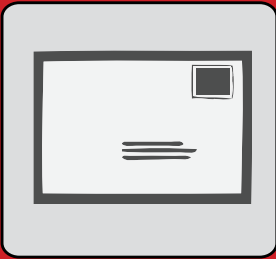

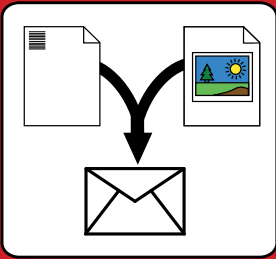

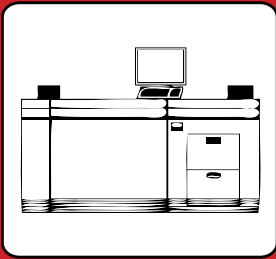

For further information, contact one of our **DocuCheck** specialists today!

#### Printer Benefits include:

- Compatible with most printer devices, including both cut sheet and continuous printers, Laser and Ink Jet printing systems
- Base paper stock verification
- Page sequence verification
- Check printing and secure document verification
- End to end tracking which supports all major symbologies including BCR, OCR, 2D Datamatrix, Dataglyph, PDF, and Postnet
- Full audit reconciliation

#### Inserter Benefits include:

- Compatible with most finishing devices
- Eliminates split collations, doubles and misses
- Address mask detection
- Complete end to end tracking through the device
- Validation of correct job, inserts and envelopes loaded
- Process speeds in excess of 30,000 pph
- Supports all major symbologies including BCR, OCR, 2D Datamatrix, Dataglyph, PDF, and Postnet
- Full audit reconciliation and reprint
